

January 2012

The Council on Brain Injury is pleased to announce its first ever conference entitled: **New Advances in Brain Injury Rehabilitation**. The conference will take place on March 22, 2012, at the Sheraton Station Square in Pittsburgh, Pennsylvania, from 8:30 a.m. to 4:30 p.m.

The conference is intended for practitioners in the field and features prominent and nationally recognized speakers including David Okonkwo, MD, PhD, of University of Pittsburgh Medical Center and Mary Hibbard, PhD, of New York University School of Medicine. Topics will include:

- Advances in neuro-imaging and neurotrauma management
- PTSD and brain injury
- Neurobehavioral interventions
- Assistive technology for individuals with brain injury
- Treatment advances for emotional dyscontrol
- Vestibular dysfunction, cervicogenic dizziness, and sensory processing issues after TBI

Continuing education credits/contact hours have been applied for nurses (PNA), psychologists and social workers (APA), case managers (CCMC) and are available for CBIS.

Enclosed you will find registration information and registration form. If you need additional information or have any questions, please contact Rose Marie Dalton at 484-595-9300 or at rdalton@remed.com

We hope that you will join us in Pittsburgh on March 22, 2012.

Joanne F. Finegan, MSA, CTRS
President

Mary Pat Murphy, M.S.N., CRRRN
Conference Chair
